INSTALLATION INSTRUCTIONS :

- 1) Ensure that the intended location for the platform is fixed and suitable (Ground conditions and level are firm).
- 2) All casters must be locked before using the platform.
- 3) Pick out the locking pin and put down the stabilizer and lockup again with the pins.
- 4) Adjustment is achieved by turning the threaded stem. Ensure that all stabilizers are in good contact with firm ground.
- 5) Push the guardrail frame up and lock with the latch.
- 6) Simply turn the handle and elevate to your working height. Ensure to fit the locking pin into the mortise lock.
- 7) Slightly slide down the platform till it is a good contact with the locking pin.
- 8) To fit the Toe-board by the latch on both sides.
